# ART AT WORK

For over 30 years CHEMETEC has proudly provided the highest quality **engineered equipment** and **services** to meet your process requirements. Together with your **Team** and strong technical support from our **Manufacturers**, we provide solutions that make your processes more efficient and more reliable year after year.

Excellence starts with design that requires experience and expertise. CHEMETEC'S manufacturers continuously create with **vision, design with purpose, and refine** with passion. We will continue to provide you with **value added solutions** in **agitation, pumping, heat transfer, and corrosion resistant piping and vessels**.

CHEMINEER is a global organization recognized for innovation in designing and manufacturing standard and customized fluid agitation equipment and systems. Additionally, under its brand names Prochem, Greerco, and Kenics, the company is also a leader in high shear mixers, static mixers, and heat exchangers. Serving customers worldwide, Chemineer has established its presence in major segments of the chemical, water and wastewater treatment, plastics and resins, petrochemical, pulp and paper, institutional foods, and pharmaceutical industries.

[dickow.com](http://dickow.com)

DICKOW has produced pumps for over 75 years. Its designs include Multi-stage Centrifugal, Process, and Sealless Magnetic Driven Centrifugal Pumps. As the technical world leader in magnetic drive pumps, Dickow holds many patents, is ISO 9001 certified, and is a supplier/partner with major chemical companies all over the world.

[moyno.com](http://moyno.com)

MOYNO is a global leader in the development of the progressive cavity pump. Its technological advancements have resulted in superior fluids handling solutions for a wide range of applications including water-like liquids and shear-sensitive fluids as well as viscous, abrasive, solids-laden slurries, and sludges.

[tranter.com](http://tranter.com)

TRANTER brings compact heat transfer solutions to customers worldwide, backed by local service coverage. Advanced designs including gasketed plate and frame, welded plate and frame, Platecoil, and Spiral Heat Exchangers offer proven performance in broad applications. Tranter is an industry leader in heat transfer solutions involving liquids, gases, steam, and two phased flow applications.

# Trusted Solutions for Every Challenge

LA: (225) 756-5472 | TX: (832) 717-3222

## PARKSON CORPORATION

[parkson.com](http://parkson.com)

Specializing in liquid / solid separation, dewatering, evaporation, inclined plate clarification, and continuous backwash sand filtration technologies.

## PFAUDLER

[pfaudler.com](http://pfaudler.com)

Leader in glass lined equipment including reactors, storage vessels, columns, mixer systems, instrumentation, and re-glassing services.

## PICK HEATERS, INC.

[pickheaters.com](http://pickheaters.com)

Direct Steam Injection Heating Systems for the chemical, paper, and food industries.

## REMA CORROSION CONTROL

[remacorrosioncontrol.com](http://remacorrosioncontrol.com)

Specializing in high performance coatings and linings for the protection of steel and concrete substrates using a variety of application methods.

## TATE ANDALE

[tateandale.com](http://tateandale.com)

Simplex and single basket strainers with heavy castings and greater wall thickness.

## TRANTER

[tranter.com](http://tranter.com)

Industry leader in heat transfer offering gasketed plate and frame, welded shell and plate, Platecoil, and Spiral Heat Exchangers.

Our highly skilled millwrights and mechanics can repair virtually any rotating equipment.

## CHEMETEC – MAINTENANCE & REPAIRS

CHEMETEC can provide machining, repair, and fabrication, as well as repair services for all agitators, pumps, gear reducers, and vessel-column fluoropolymer linings. We are the factory authorized service center for Chemineer Agitators, Liquiflo, Moyno Pumps, and Edlon vessel and column repairs. Chemetec repairs all types of rotating equipment.

**CHEMINEER** is a global organization recognized for innovation in designing and manufacturing standard and customized fluid agitation equipment and systems. Serving customers worldwide, Chemineer has established its presence in major segments of the chemical, water and wastewater treatment, plastics and resins, petrochemical, pulp and paper, institutional foods, and pharmaceutical industries

EDLON is an expert in engineered Polymer and Fluoropolymer material with over 40 years of experience in creating specialized, cost-efficient solutions. Edlon's focus is High Purity Fluid Management, Corrosion Protection, and Roll Cover and Release Applications. Edlon's Polymer and Fluoropolymer-bonded liners, coatings, and thick, loose liners for vessels, columns, dip pipes, and fittings are used in processing, transporting, and storing of corrosive chemicals.

**PFAUDLER** is the inventor of glass-lined steel and remains the world's leading supplier both domestically and worldwide with a complete line of Glasteel® equipment including: reactors, storage vessels, columns, mixer systems, instrumentation, and reglassing services.

**TRANTER** brings compact heat transfer solutions to customers worldwide, backed by local service coverage. Advanced designs including gasketed plate and frame, welded plate and frame, Platecoil, and Spiral Heat Exchangers offer proven performance in broad applications. Tranter is an industry leader in heat transfer solutions involving liquids, gases, steam, and two phased flow applications.

## BAUM AMERICA

[baumamericacorp.com](http://baumamericacorp.com)

Full range of high quality fluoropolymer-lined steel pipe, fittings, expansion joints, hose, dip pipes, and valves.

## CG THERMAL

[cgthermal.com](http://cgthermal.com)

Full service, graphite and ceramic heat exchanger manufacturer with stringent material and design standards with over 50 years of combined application history.

## CHEMINEER

[chemineer.com](http://chemineer.com)

Full line of agitators ranging from small portables to large rotating agitators; Prochem offers heavy duty belt driven side entering mixers; Greerco provides high shear mechanical mixers and colloid mills for batch, continuous in-line, and lab applications.

## EDLON

[edlon.com](http://edlon.com)

Polymer and Fluoropolymer-bonded liners, coatings, and thick, loose liners for vessels, columns, dip pipes, and fittings. Used in processing, transporting, and storing of corrosive chemicals.

## ENVIROPUMP AND SEAL, INC

[enviropumpandseal.com](http://enviropumpandseal.com)

Heavy duty "Next Generation" ANSI process pumps with sizes up to 8" x 10" x 17". Modular bearing frame/seal system is currently adaptable to nearly 200 different makes, models, and sizes of ANSI pumps.

## KENICS

[chemineer.com](http://chemineer.com)

Industry leader in static mixers and heat exchangers using static mixer technology.

## PFAUDLER

[pfaudler.com](http://pfaudler.com)

Leader in glass lined equipment including reactors, storage vessels, columns, mixer systems, instrumentation, and re-glassing services.
